C.H.E.S.S. is exciting audiences with his critically acclaimed hit “The Doppler Effect (It’s Me)”, which earned Grammy consideration. This power ballad beautifully defines the doppler effect and the challenges of relationships, illustrated by the lyric “Colors are changing, but I’m still remaining the person I have to be.” A blend of modern sounds with a classic approach, his style can be described as a fusion between new vintage pop and soul, resulting in songs that have been described as timeless.

C.H.E.S.S. is described as a charismatic artist, and, as a result, has collaborated with many greats in the music industry. He is well known for his soaring and stellar vocals and rousing stage presence, and a crowd favorite wherever he performs.

C.H.E.S.S. has spent much of his career in the studio. He has released several albums and worked with music legends such as Phil Collins, Marc Shaiman, Henry Krieger and Artie Butler. Dr. Gregory worked with PJ Morton and Eric Roberson for his album In Search of High Love. Other collaborations include Ledisi, Keyon Harrold, Dot Da Genius, MaliMusic, 88-Keys, 9th Wonder, The Pocket Queen, Cory Henry, and Chance The Rapper.

The Doppler Effect (It's Me) is available on all digital music platforms.
